

We at Sylvan Table are thrilled to introduce our first-ever Sprout Scouts Farm Camp this summer!

This 5-week summer camp will focus on educating students about sustainability and regenerative gardening.

Participants will enjoy a fully immersive experience on our 3-acre farm, along with weekly activities and crafts centered on gardening, recycling & sustainability, and responsible stewardship of the land and body.

The camp will culminate in a harvest picnic during the final week, where campers will gather to reflect on their experiences and share a communal meal.

Campers will get their hands dirty and spark their curiosity as they learn about:

- 🌱 Caring for a garden**
- 🌱 Recycling, composting and sustainability**
- 🌱 The vibrant world of flowers and pollinators**
- 🌱 Building a deeper connection with the environment**

We are excited to offer TEN Sprout Scout Scholarships to upcoming 4th and 5th-grade students who demonstrate a genuine passion for the environment, learning, and scientific exploration.

WHEN: Tuesdays, July 7th - August 4th, 9 AM - 11:30 AM

WHERE: Sylvan Table, 1819 Inverness St, Sylvan Lake

****Please note, all campers must be responsible for transportation to and from the farm camp.****
