

Sylvan Table x The Pledge

Four Monthly Report

November 2022–February 2023

Sylvan Table has been part of The Pledge™ on Food Waste program since November 2022 and here is our first Four Monthly Report.

We have been hitting our target of reducing our waste per cover/guest each month. The target is to keep our waste under 0.45Kg per cover/guest.

Here are our results:

Month	Total Waste (Kg)	Total Covers (guest no.)	Waste per Cover	Waste < Target (0.45Kg/cover)	% Waste Prevention
Nov-22	1687.86	5736	0.29	0.16	36
Dec-22	1741.45	5623	0.30	0.15	33
Jan-23	2032.06	4790	0.42	0.03	7
Feb-23	1823.65	4659	0.39	0.06	13
TOTAL	7285.02	20808			
AVERAGE	1821.26	5202	0.35	0.10	22%

Sylvan Table’s total waste of food for the indicated 4 months is 7285.02Kg. On average, we are producing 22% less food waste than the average hospitality guest would usually produce.

This waste is **ALL COMPOSTED** so has been kept from going into landfills. Food waste in landfills produces extra unnecessary Carbon Dioxide (CO₂) in the earth’s atmosphere. Every 1.0Kg of food waste in landfills produces 0.25Kg of CO₂.

Month	Total Waste (Kg)	Total CO2 Emmisions (2.5 x Food Waste (Kg))
Nov-22	1687.86	4219.65
Dec-22	1741.45	4353.63
Jan-23	2032.06	5080.15
Feb-23	1823.65	4559.13
TOTAL	7285.02	18212.56Kg
AVERAGE	1821.26	4553.14

Our results show that over our first four months of being part of The Pledge, Sylvan Table has prevented 18212.56Kg of CO₂ from going into the atmosphere.
